CTH J in Town of East Troy to be Closed for Lake Beulah Dam Construction Project

The upcoming replacement of the Lake Beulah Dam Spillway located in the Town of East Troy will necessitate the closing of CTH J for several months. Terra Engineering and Construction, the contractor awarded this construction project, anticipates beginning its work the week of April 13th and CTH J will then be closed at the construction site for the duration of the project which is anticipated to be completed by mid-August.

The recommended detour map is included here and is also posted on the county website. Look for the “Highway Updates” Link on the Walworth County home page.

Motorists travelling east on CTH J to Mukwonago from the Whitewater and LaGrange areas could consider taking STH 20 to I-43 rather than the posted detour. Motorists travelling west on CTH J should also consider taking STH 20 as well as other alternative routes. The County will place large message boards on CTH J notifying motorists of the upcoming road closure at the Lake Beulah Dam.
